

# Career Navigator

Career clarity, acceleration, and confidence — without burnout. Strategic and tactical tools for landing aligned work, for students, job seekers, and professionals at any stage.

## EIGHT TOOLS, ONE GOAL: ALIGNED WORK

### Career Alignment Assessment

Find direction that fits how you're wired — not just what's open.

### Resume Analyzer + Builder

Position your real strengths so the right roles recognize them.

### Job Opportunity Finder

Surface roles worth your attention instead of endless scrolling.

### Skills Gap Analyzer

See what stands between you and the role — and the realistic path across.

### Job Market Insights

Understand where the market is moving before you commit.

### Interview Preparation

Build stable confidence with structured, role-specific practice.

### Salary Negotiation Calculator

Know your numbers and negotiate from facts, not fear.

### LinkedIn Optimization

Make your public presence match your actual value.

## POWERED BY YOUR WIRING

Career Navigator works best after DesignSuite: your wiring profile informs career alignment, resume positioning, interview strategy, and LinkedIn presence — so recommendations fit who you are, not a generic template. It's a head start, not a prerequisite: you can begin here any time.

## HOW YOU'LL KNOW YOU'RE READY

### Clear direction

A named role direction and a next milestone with a realistic timeline.

### Stable confidence

Interview confidence and reduced decision anxiety — progress without erosion of wellbeing.

### A plan that holds

A financial and practical plan that supports your next steps.

“You have what you need to move forward from here. You're not finished — you're ready.”
